The Chicago Daily Tribune.

VOLUME XLIV.] SATURDAY, AUGUST 30, 1884—SIXTEEN PAGES. PRICE FIVE CENTS.

GREAT REDUCTION

IN THE PRICE OF

THE CAMPAIGN WEEKLY TRIBUNE.

The Original Blaine and Logan Paper of Chicago.

One Hundred Copies to One Address from Now Until After the Presidential Election for $10.

Forty-five Copies to One Address for $5, and Eight Copies for $1. Single Copies 10 Cents.

THE CAMPAIGN WEEKLY TRIBUNE has now reached a circulation of [illegible] copies. It has been furnished to subscribers since the opening of the campaign below cost to the publishers.

The Tribune Company has designed THE CAMPAIGN WEEKLY to be a contribution to the good work done on behalf of the Republican candidates.

Since the period for which the original subscriptions were made has nearly passed the Tribune offers a corresponding reduction in the price of THE CAMPAIGN WEEKLY, which will be sent from now till after the Presidential election (ten weeks) at the following rates:

One Hundred Copies (to one address)	$10.00
Forty-five Copies (to one address)	5.00
Eight Copies (to one address)	1.00
Single Copies	.10 cents

These rates only cover the cost of the white paper and printwork, and leave no margin for mailing, postage, or bookkeeping.

Postmasters are required to be addressed to each member of a club the rates are:

Forty Copies for	$5.00
Eight Copies for	1.00

This offer is unparalleled in the history of journalism, but we make it to secure the election of Blaine and Logan. The country cannot afford to be a tool of railroad monopolists and an enemy of the workmen in the approaching crisis, nor can it afford to have its industries disturbed by a Democratic triumph. It cannot afford to have the Government turned over to a horde of merciless corporations who want control only for purposes of plunder.

THE CAMPAIGN WEEKLY is a large eight-page paper of fifty-six columns, crowded with a great variety of interesting reading. It contains the best political reports printed anywhere during the campaign.

It has a full page of editorial articles and paragraphs discussing the leading issues of the day.

It gives a complete summary of all the news of the week in concise and readable form.

It has the best market reports, prepared by the ablest writers.

It devotes one page wholly to family reading, containing short stories, poems, and miscellany.

Blaine and Logan clubs, campaign committees, and individuals interested in the success of Republican principles this year, can have no more useful work than THE CAMPAIGN WEEKLY at the very low rates for which it is now to be obtained.

Eight copies (to one address) for $1. One hundred copies (to one address) for $10. Send orders to THE TRIBUNE COMPANY, Chicago, Ill.

GOOD AMERICANISM.

[Associated Press dispatch.]

New York, Aug. 28.—[Special.]—Gen. David B. Hunter, from Hudson County, and Gen. David A. O'Meara, from Irish-American editors who have been true to the traditions of the Irish Race, and ever, while rendering allegiance to the land of their adoption, have not completely of the dark which formed that dark blot of darkness that overshadowed today up to their splendid record for true American patriotism of the World, to the latest security publication in the World.

Gen. Hunter was found in the Tax Assessor's office.

"It's false," he said. "There is no public office in America today who has evinced more public zeal and devotion to their duties to secure good government than Joseph A. Stalker. When Gen. Harrison and I hastily assumed charge of Colonel A. Gill and put him back into the Assessors point of the District good, loyal citizen as and of others engaged in the struggle for Irish independence. We went on to Washington and represented to him how the Stalker subscribed more according Irish-Americans to Ireland, each under the government of the Queen, except republicans, Democrats, Mugwumps, Populists, prohibitionists, anarchists, socialists, and every other political party in the country. The great enlightened over our united and benefactor to know the existence of Congress in the high-handed proceedings of the English officials. We had been more stupid to the Federal Legislature in behalf of Irish-Americans, who were treasured in English prisons on such trumped-up charges."

"But Mr. Stalker's Secretary of Hostility claims it was he who took control in the matter."

"Mr. Robinson was not a member of Congress at all at that time. Mr. Stalker knew more of the question. I readily recognized that Mr. Robinson was there, but I can safely say that Mr. Stalker was the subject he was the first man to take up the matter and give Ireland to understand that American the world was infinite her high-handed outrages upon Irish-American citizens that were true to her benefactors. It's more than the world combined in connection with this matter."

Gen. Michael Kerrin was born in the city of the Shield, the 7 Stanley streets of which poor and he is prosperous and active.

INDEPENDENT COURAGE.

"I have known Mr. Stalker personally for many years," he said, "and I found him a thoroughly independent of Democrat in politics. He stood by one of the most unpopular acts of the young Democracy of this city, and that was the election of Abram S. Hewitt to Congress from this district. The Tammany organization, with which Mr. Hewitt was then identified, was overwhelmingly defeated, and Mr. Hewitt was elected by the votes of Republicans and Democrats who refused to support the Tammany candidate. Mr. Stalker was one of the Democrats who stood by Mr. Hewitt in that campaign, and he has been a consistent Democrat ever since. He has been a delegate to many Democratic conventions, and has always been found on the right side of every question. He is a man of the highest character, and his word is as good as his bond. He is a man of the highest character, and his word is as good as his bond. He is a man of the highest character, and his word is as good as his bond

CARTER AND HIS CRITICS.

"Slanders would never have made that Democratic speech," was the remark of a leading and well-posted Republican yesterday, referring to the Hon'ble's harangue to the Schoolmen of the Sixth Ward Thursday night. The Hon. ex-politician in the Chair, Fourth, Eleventh, or Twenty Wards, where the speech excitement politics as well as he does itself, and hated for the false, dangerous, disorganizing sentiment with which it abounds, but discussing the matter before a crowd of Democratic people who have an imperfect knowledge of the English language and cannot even understand an account of our being mixed and amused to this accuracy—the temptation to feel a complacency, ignorant audience that would be flattered upon the most accustomed assumptions. Jeering were this statement true, he undertook to become so base a way that was simply shameful.

He began by saying the Democratic party was the party of the people, when he knew as well as the party of the Government of the Republic, and that consequently every one who opposed that party was a traitor; a position that was beyond cavil or dispute; but he argued a position that was beyond cavil or dispute; but he argued from the premises thus established, that the Democratic party was the party of the people, and that consequently every one who opposed that party was a traitor;

IN GENERAL.

The police are beginning to ship up the dangerous characters, drunken rioters and the non-income-taxe cases rapidly.

Mr. D. L. Hough was asked yesterday when work was to be commenced on the Lincoln Park subway. "Always soon," he replied. "Don't you?" "I won't bet you," was the answer he received.

Twenty-eight Commissioners for Illinois for the Fair Grounds World's Fair have been appointed by Gov. Hamilton. Governor Hamilton of this city has been appointed Superintendent of purchases for the education of agricultural products.

The temperature yesterday, as observed by Sergeant Saltzstein, Signal Service, was as follows: 6 a. m., 68° above zero; 9 a. m., 72°; 12 m., 77°; 3 p. m., 78°; 6 p. m., 76°; 9 p. m., 74°; 12 p. m., 71°; 3 a. m., 68°; 6 a. m., 66°.

A lacrosse match will be played in the Chicago base-ball park this afternoon between the St. Paul and the Lincoln Avenue clubs. The following team will represent the Lincoln Avenue: Goal, Cummings; 1, Hamilton; 2, Brown; 3, Ross; 4, Hamilton; 5, Cummings; 6, Brown; 7, Thomas; 8, Ross; 9, Hamilton; 10, Simpson; 11, Simpson; and 12, Cobb.

Mary Orland, a servant living near the corner of Union street and Milwaukee avenue, had been missing since last night, and her mother, Mrs. Margaret Thomas Murphy, a grocery store, with the police. On her discharge by Captain Wheeler this morning she went home and found her daughter there. The servant declared she had not been away, never knew where Mrs. Murphy lived, and had not left the Thompson Street Station.

The attendance at the Chicago Theological Seminary this year promises to be unusually large. Besides as well as Western colleges will be represented. Four students are supported in the Kennedy Missionary. A new hall will be erected, the beginning account of the munificence of Mrs. Emily Crerar, a member of the First Congregational Church, by the Rev. E. B. Sims.

James P. Lyons, an engineer attached to the engineering contractor's office at Washington Park, is the boy for the purpose of constructing the Intermediate Railway. He looked at some of the water yesterday and will commence the work at once. The appointment of an Irish Catholic boy will probably give great satisfaction to the Irish Catholic boys of the city.

Justice Foote issued warrants for the arrest of Otto Sprenger, who keeps a dance-house on Twelfth street, for keeping a house of ill-fame. The complaint is from Ida Franke, who was charged by Justice Foote with the same offense. She was discharged. She was arrested by Officer Hoffman, who testified that Sprenger struck her with a billy. Sprenger was fined $100 and costs. He gave bail in default of which he was committed to the county jail.

Work and Wages.

James E. Thorold Rogers, formerly Professor of Political Economy at Oxford and now a member of the British Parliament, has done an admirable service to the students of history, political economy, and the science of labor, by the publication of the first volume of a work which he has been engaged during the last ten years in preparing. It is a repository of all the information procurable from the public records relating to the subject, and is the result of immense labor and research. The author has long been able to gather and use the treasures he found in the archives of the realm, and his familiarity with the records of the courts and the rudiments of the law has been of great service to him in his investigations. The materials of every statement are set forth with the utmost fullness of detail, and the reader is thus enabled to form his own opinion of the value of the evidence. The author's own opinions are not obtruded upon the reader, but are given in a calm, judicial manner, and with a modesty becoming a writer who has done so much original work. He has not, however, hesitated to express his views when he thought it necessary, and in the preface to the present volume he has given a brief but comprehensive statement of the principles which have guided him in the selection and arrangement of his materials. The work is divided into seven books, each of which is devoted to a separate subject. The first book is entitled "Prices," and contains a full account of the prices of all articles of food, from the earliest period to the present time. The second book is devoted to "Rents," and the third to "Wages." The fourth book is entitled "Profits," and contains a history of the rise of the middle class. The fifth book is devoted to "Pauperism," and the sixth to "Legislation." The seventh book is entitled "Conclusions," and contains a summary of the author's views on the subject. The work is a valuable contribution to the literature of political economy, and will be found indispensable to all students of the subject.

It is surprising how much one has to unlearn in perusing this second volume of Dr. Holmes' new edition of his "Autocrat" papers. Not that the author has changed his views of life, or that the charm of the Phenomenon and his wit and humor, as well as his power to call forth, by "footings," and, when he wants to, "underlinings," are less than they were in the first series of papers, but that the whole tone of the book is different. Not, that is, that the author has become a sentimentalist, or that he has lost his old-time vigor, but that he has learned to temper his wit with wisdom, and to subordinate his humor to the higher purpose of his writing. The "Autocrat" was a book of the world, and was written for the world. The "Professor" is a book of the study, and is written for the student. What Old Persons Can Furnish of Interest to the Fatherland.

Enrolling Their Names Collections Being Made in Chicago.

Chicago, Aug. 26.—[Special Correspondence.] Prussia is one of the most enterprising nations of Europe. It has also the greatest love of home, country and race. The Prussians never leave the land of the glorious fatherland. It is almost impossible to induce them to leave their native country. They love their country and their people with an intensity that is unknown in the United States. They love the land of their birth, the land of their fathers, the land of their children, the land of their graves, the land of their hopes, the land of their dreams, the land of their memories, the THE CORN CROP.

Substantive Reports from Illinois, Indiana, Iowa, and Other States.

A Great Yield Certain—Increased Acreage Throughout the Corn-Belt Assured.

Reasons and Rationale for the Rosier Estimate of the Enthusiast Reports by Counties.

THE OUTLOOK.

CHAMPAIGN COUNTY.

The farmers this morning promise for the benefit of the readers Tribune reporters in the growing crop in the great corn-producing States of Illinois, Indiana, Iowa, Kansas, Nebraska, and Missouri. The reports were received in response to circulars sent to the county correspondents of THE TRIBUNE, requesting of them a brief but comprehensive report from on the acreage as compared with last year; second, on the amount of old corn still on hand; and third, on the prospects of the new crop as compared with this time last year. The reports are complete and reliable. They show that the harvest in the great corn-belt will exceed that of previous years by thousands of bushels, unless early frosts intervene. The increased acreage is especially noticeable in the corn States, where the idea of overproduction has not yet dawned. The old corn is practically exhausted in each case, scarcely enough remaining to carry the farmers over until the new crop is secured.

ILLINOIS.

The reports from Illinois were full the exception of the State, embracing the most important points in the great corn-belts of the Illinois and Wabash valleys. The average planting of corn has increased but slightly in the northern part of the State, but in the central and southern counties large farmers seem to be devoting more attention to corn than ever before. The acreage in corn throughout the State from personal observation is about 5 per cent greater than last year. If the old crop there is comparatively little in sight—certainly no more than will be needed for home consumption—it would seem that these reports showing that not over 5 per cent of last year's crop is left on hand, and that, with almost a full crop in the ground, the South greatly benefited corn in the early September months, and that in those months a tremendous acreage of said cereal goes into the market, the price will be high. If the former fact of long enough a late average corn will be secured. The acreage has been largely increased, and if frosts hold off for two weeks longer the yield will be enormous. Reports from all parts of the State indicate that the corn crop is practically safe from frosts, and good judges apprehend that August will not be cool enough to do any damage.

ADAMS COUNTY.

EX-GOV. STUART'S ESTATE.

A Bond of $100,000 Required by the Court of the Commissioners.

Count for the Army Claims a Lien—Pay-ment Likely to Be Made Today.

Yesterday afternoon the attorneys in the case of William S. Stuart appointed by the Probate Court for the purpose of taking out of the hands of Judge C. Chauncey Nash the trust connected therewith,

Judge Grossbeck and Judge Nash, U. S. Commissioners of Claims in the Department of the Treasury,

Judge Grossbeck opened the court here by stating the object of the Board's presence in Chicago, and announcing himself and colleagues ready to hear any testimony that might be offered.

Mr. Arnold then introduced the affidavit of Mr. Stuart, stating the facts of the Board's presence in Chicago, and praying that the Commissioners be ordered to take testimony in the matter.

The court said that the Board assembled had not been advised of any pending claims in favor of the United States against the estate, and that the parties here were here upon the petition of the executors, and it being their desire to have the matter closed up as soon as possible, the court would not require the presence of counsel for the United States. The court would, however, be glad to hear from any counsel present who might desire to be heard.

Mr. Arnold said there could be no question as to the jurisdiction of the tribunal, but that he would be much more satisfied if the court would first order the matter to be brought before it, and that the court should then proceed to take testimony. He thought it would be necessary to appoint commissioners to take testimony, and that the order should be made in such a form as to have the testimony taken before the Commissioners of Claims, and not before any Commissioner appointed by the court. He would prefer that the matter should be brought before the court in the form of a petition, and that the Board of Commissioners of Claims should then be appointed to take the testimony.

Judge Grossbeck said that the court would be glad to have the matter brought before it in any way that would be satisfactory to the parties interested, and that the court would appoint the Commissioners of Claims to take the testimony.

Mr. Arnold said that he would prefer that the order should issue directly from the court, and that the Commissioners of Claims should then proceed to take the testimony.

Judge Grossbeck said that the court would be glad to have counsel present who might desire to be heard upon the question of the jurisdiction of the court in the matter
